Faculty Name: Melvin Scheinman

Email: Scheinman@medicine.ucsf.edu

Phone Number: 415 476 5708

Department/Organization Affiliation: Cardiology

Preferred Method of Contact: E Mail

Project Name(s): New Gene discovery

General Topic (Keywords): Genetic arrhythmia syndromes

Project Description(s): We have identified 145 patients with life threatening heart rhythm disorders who have no evidence of structural cardiac disease and no evidence of a known pathogenic gene mutation. We have constructed a large research panel of genes thought to be associated with cardiac rhythm disorders and need to correlate our gene findings with the clinical findings

Desired Skills or Experience: Background in Biology and genetics

Time Commitment: 6-8 hours/day

Preferred Starting Date: July 1, 2016
